LED-Light sources: HT-LEDF-1000

Technical Data

- Diode: High-pPower LED
- Control range: min. 30:1
- Colour temperature: 5.500 K (daylight)
- Power consumption: 22 W
- Power supply: 24 V DC +/- 5 %, 1000 mA, hollow pin 5,5 x 2,1 mm
- Brightness control: infinitely variable using rotary potentiometer with index marks
- LED lifetime: 50.000 h
- Light guide connection: Photonic Standard (Ø 15 mm, galvanical separated)
- ESD socked: for 4 mm banana plug for potential equalisation
- Dimensions: (L x W x H) 96 x 110 x 175 mm without controls
- Weight: 2.500 g
- Type of protection: Protection class III
- Conformity: CE (EMC directive 89/336/EEC), RoHS
